Ex-Easter Island Head Saturday 8 June, 7.30pm

This is a special in-the-round performance.

In meteorology, the word Norther refers to a cold wind that blows down from the North. For Ex-Easter Island Head, it's also an apt title for the strange and multi-faceted sound of their new album, their first since 2016, which drifts from billowing clouds of melancholy to propulsive hypnotic headwinds.

Years in the making and crafted in their home studio housed within the former Brazilian consulate in Liverpool, the music is an ever shifting thrum of sounds, both acoustic and electronic, which appears to teem and squirm, yet which moves as part of one mighty breeze.

Building on over a decade of activity, Ex-Easter Island Head have long been a cherished part of the UK underground.

Presented by Crushing Death and Grief.
